The Money Mafia: A World In Crisis

Synopsis

Exposing perceived fault lines in our banking and financial systems and explaining how unemployment could be cut in half in two years and worldwide prosperity restored, this book argues the existence of exotic energy sources to replace fossil fuels and consequently recommends an immediate end to fracking and offshore drilling for oil. It further urges an immediate worldwide mobilization to replace the energy source in every car, truck, tractor, ship, airplane, and house on Earth in seven years in a desperate effort to save the planet from further overheating. The book blasts government secrecy, and more than 65 years of supposed lies and disinformation, and demands full disclosure of what they know about visitors from other realms and their technology and the extent of their collaboration, including any treaties that may have been signed by them. With more than 65 years of participation in and observation of political and economic systemsâ beginning with the Great Depression, extending through World War II, the postwar era of hope for a better life, the Cold War, the subjugation of democracy by oligarchy, and the subtle but continuous militarization of Americaâ Paul T. Hellyer analyzes what he believes has gone wrong with the world and its economy and suggests radical measures to introduce a universal culture of peace and cooperation.

Author Paul Hellyer will be turning 92 in August 2015. He was first elected to the Canadian House of Commons in 1949 at the age of 25 and has held a variety of elected and appointed government

positions his entire career. In 1963 he was Canada's Minister of Defense. In 1968, he was Chairman of the Task Force on Housing and Urban Development. In 1969 he achieved the rank of Canada's Deputy Prime Minister. Now, in his twilight years, he has written an amazing tell-all about the shadow government of the United States and its impact on the world. Hellyer makes the very convincing case, backed up with 12 pages of citations, that the United States is no longer a nation of democratically-elected representatives working on behalf of the American people. Instead, our leaders are mere puppets for a group that is really pulling the strings, which he calls The Cabal: a secret government comprised of the banking cartel, the oil cartel, the large multinational corporations that are controlled directly or indirectly by the banking fraternity, the intelligence community including the CIA, FBI and NSA, and a formidable slice of the U.S. military. He neatly connects the dots between Nazism, Wall Street greed and corruption, The New World Order, global warming, GMOs and government cover-up regarding not only the presence of intelligent extra-terrestrial beings but the ongoing black ops budget "funded by unwitting American taxpayers, without the knowledge or consent of Congress or the President -- to back-engineer advanced alien technology. Hellyer asserts that this technology could free the world of its dependence on fossil fuels, freeing up trillions of dollars to better the lives of people all over the planet, including those in the United States and Canada.
