Fifty Ways To Teach Them Grammar: Tips For ESL/EFL Teachers

Synopsis

Many textbooks do a fine job of presenting grammar to students. However, some students or classes need more practice after they've finished the exercises in their textbook. This guide provides imaginative and enjoyable games, drills, and activities to practice different grammatical structures such as verb tenses, articles, phrasal verbs, pronouns, relative clauses, modals, word forms, syntax, and more. This audiobook is divided into three categories: a) Reading-writing exercises, b) Speaking activities, c) Fun & games. Enliven your classes with information gaps, poems, game shows, guessing games, substitution drills, writing prompts, discussion topics, and more. The Fifty Ways to Teach Them series gives you a variety of drills, games, techniques, methods, and ideas to help your students master English. Most of the ideas can be used for both beginning and advanced classes. Many require little to no preparation or special materials. The ideas can be used with any textbook, or without a textbook at all. These short, practical guides aim to make your teaching life easier, and your students' lives more rewarding and successful.

Book Information

Audible Audio Edition

Best Sellers Rank: #55 in Books > Audible Audiobooks > Language Instruction > English #147 in Books > Audible Audiobooks > Language Instruction > Other Languages #595 in Books > Audible Audiobooks > Nonfiction > Education

Customer Reviews

The activities and support material provided are right on. Plus the tips on how to use the book in the introduction make it fool proof. I've never learned so much for so little in my ten years as an EFL teacher. Totally recommend.

This Book gives 50 varied activities / methods of teaching 50 varied basic grammar points. If I was to describe this book on 1 word it would be "varied". To me it seemed to be a big jumble of ideas

with little coherence in the way of order. The activities mentioned are a varied mix of TS and SS and many of the activities would only last 5 minutes or less in a regular class room. Due to the mixing pot order of the activities sometimes this book was a little difficult to navigate when searching for a specific grammar point. However for a beginner to ESL teaching the kindle version is totally worth the price.

Did not see anything new or exciting in here. The same old ideas that can be found in any basic TEFL course were copied here. Waste of money. Nothing in here you can't find with a simple Google search. The whole series is terrible.

I like the various mixture and activities. They are great ideas and starting points for additional tasks. Not the best book out there, but still useful.

Thank you! This has helped a lot with some major grammar points for English Language learners -- and the activities are fun!

Really like the 50 Ways series. Lots of easy to implement ideas for the classroom.
