Six Months: Seven Series, Book 2

Synopsis

April Frost is a compassionate young woman with a steady job and ambitious goals. But the harder she runs away from her past, the more it threatens to destroy her. When three strangers enter her life, April is forced to face her demons, and it's a battle she may not win. Private investigators in the Breed world are men who take risks, and Reno Cole is no exception. As a Shifter, he's expected to control his inner animal. But lately his wolf has been venturing dangerously close to the city, and he's about to discover why. When Reno is reintroduced to a family friend, the attraction is immediate. April captivates him with her secretive eyes and resilient spirit. She's also in trouble, and despite the fact that she's a human, Reno can't turn his back on her. April is caught between two worlds: One that threatens to bury her dreams and another that could fulfill them. Can she trust the wolf at her door and find the courage to overcome her demons?

Customer Reviews

Hitting rock bottom. I think it happens to all of us at some point, for some reason. I don't think there's one of us that miss it, not really. It's just a matter of how deep and how sharp the rocks. And just like we all hit it, I'm pretty sure the same thing brings us out of it, one way or another. "Hope.Six Months is, ultimately, a story about hope. Hope that we can all set down our baggage long enough to let someone in, let someone see us and love us for all the bad and good. Hope that we define ourselves by who we are at our core, not what we've experienced. Hope that we can all come back from just about anything. Reno Cole is an ex-soldier, current PI who

knows exactly who he is, even if heâ€™s not entirely sure of exactly what he wants. April Frost is a caretaker extraordinaire who consistently puts everyone else before herself. Reno is a wolf Shifter. April is human. The two rarely mix for a whole host of reasons, some obvious and some not quite as, but regardless, Reno and April start with a major strike against them from the very start which then just gets infinitely compounded by Aprilâ€™s past, her inherited present and life in general. When these two come together they immediately revert back to old habits expecting the other to bend, which doesnâ€™t work. So they do the unthinkable for two characters such as themselves â€“ they compromise. And revel in that compromise; showing each other possibility in a way neither ever thought was available. Their relationship is so heart-wrenchingly authentic. Reno has the gift of cutting through every brand of bull straight to the heart of the person and he continually peels back Aprilâ€™s layers, one by one, revealing an extraordinary and damaged woman desperate to be loved.
