# The Ancient Black Hebrews Vol II: The Forensic Proof Simply Explained

## Synopsis

The author takes you through what forensic anthropologists look for to determine racial ancestry in a skeleton. He then uses this information to show black traits in the ancient biblical period skeletons that have been dug up in Israel. He finishes the book with accounts of Christian-period Judeans who show these same features. Wonderfully and simply written. This settles the issue once and for all!

## Book Information

Audible Audio Edition

Listening Length: 1 hour and 58 minutes

Program Type: Audiobook

Best Sellers Rank: #32 in Books > Audible Audiobooks > History > Africa #79 in Books >

Audible Audiobooks > History > Ancient #237 in Books > History > Ancient Civilizations > Egypt

## Customer Reviews

I highly recommend this book. It was simply written and very enjoyable. The author sets out to explain the African/black ancestry of the Hebrews using forensic anthropology, and did a masterful job! I would recommend purchasing his Volume I as well. These are must have books to add to your library a must have for anyone who is interested in history.

This book has been written in a scholarly, clear, unbiased and convincing manner! The information presented is based on a scientifically acceptable method of determining a person's heritage. Indeed, this is forensic evidence right before our eyes. From a statistical point of view, the sample size used was large enough for us to make a good conclusion about the population: Indeed the Ancient Hebrews were of an African origin unlike what they are today. I highly recommend this book to anyone who is interested in TRUTH especially Black Africans and African Americans who have been victims of racism!

I perused it 1st X...have now read thru twice! Highly recommend if seeking more about true history instead of that gooblegook they handed us in school! I wish they would teach TRUE history of all things instead of lies. The more true history i read the more I see how the lies they are feeding our kids is ruining everything. I am now teaching mine true history & stopping the lies. Just think..we are really 100 to 200 years ahead in tech & all but they only give it 2 us a little @ a X. Most ppl cannot bare the reality of things..so they rather believe lies than truth. How sad!

Great piece foe literature, especially for those who do further research and accept the truth.

This work is sometimes tough to understand due to all the empirical data presented; however, it does sum up its conclusions quite succinctly.

I think the author did a great job of helping the reader to classify the populations unearthed in terms of other known populations.

Valuable information if you're interested in knowing about the indigenous and original Hebrew people.

If you are of the tribe of Judah, This book is a must for reading! Ahayah Bahashem Yashiyah Barak Ahtham Wa Qadash Ruwach
