This is the Best Book that I've read about Real Estate. Because of this book, my mind has now been opened and more knowledgeable about Real Estate. I truly want to learn more about Real Estate, and truly this book teaches me lots of basic things I need to know about it. There are also lots of helpful advice that Eric Alton included in the book that make this book more valuable to readers. First off, Eric started with explaining what real estate is, and the key real estate players. In here, I easily understand the concept about real estate. Then it's followed by explaining what can you do in the real estate - whether you want to become a realtor or want to work independently. Another topic that I've really learned a lot from is the chapter about AirBNB. In here, Eric discussed the potential income that you could earn while using AirBNB. But my most favorite topics among all are these 2: Advantageous Opportunities and The Art of Flipping. In the chapter about Advantageous Opportunities, Eric explains the 3 types of Real Estate - Residential, Commercial, and Raw Land. He also gives great advice for each, the pros and cons, and how we can make a potential money for these 3. Another topic that I like is about the Art of Flipping. This is actually the first time I've heard of this. And I'm truly amazed by it. In here, Eric specifies and explains what the art of flipping is all about. My take-away here is that you can actually buy a property, renovate it, and sell it for a higher profit within 12-month period. I've truly learned and gained wonderful ideas from it. Overall, this is the Best Book ever that I've encountered about Real Estate. This is I could, a Gold-Mine.
