## Customer Reviews

This is one of the best scholarship books that I have come across when compared to other scholarship books. With my low GPA but creative talent, it has become difficult to find scholarships that I qualify for. With this book alone, I have managed to find 34 total that fit my criteria -- 24 of which fall into the general categories while the other 10 fall into the Humanities/Arts category. When compared to these two other scholarship books I had; those books combined, I only found 5 that fit my requirements with only 2 being applicable to me. So this book is good for scholarship searching which is the main reason I got it.

With our first child entering college soon, we purchased 2-3 scholarship books. I was drawn to this

one since the authors claims to have paid for their entire education with scholarships. However, the information is out of date. Using the companion website with the book only leads to dead links. Most telling is THEIR OWN SCHOLARSHIP, which is still listed in the book, but hasn't been offered in two years.

This is my second year using this scholarship book. It is so much easier to use than trying to find scholarships on the internet. I would highly recommend this to everyone looking for scholarships. There are scholarships for every grade and age ranging from graduate students to high schoolers. The book is easy to use and I was able to find over 30 scholarships that applied to me.

This book has excellent content, but it's all content that you CAN find for free on the internet. Websites like Scholarshipedia.org and Fastweb.com have all of these scholarships listed, and there's no cost. So although this book has great content and scholarships, it's not worth spending money on it.

I really liked the number of scholarship and the amount of information about it. A quick glance at the information provided can give you an idea of your chance to qualify for the scholarship and the kind of application you need to produce in order to win.

My brother and sister-in-law are trying very hard to get their son into a college..So far the colleges they have toured are way above their finances.I mentioned a book of this sort,,so I decided what a great gift,,it is reasonably priced. When my sister-in-law called she was thrilled I took the time to get this for them...She says you know how big this book is!!!Nope, ordered it online. They have found many options and she is only up to the first 200 pages!! Glad I bought this for their family,,it has a lot to offer.Keep up the good work !

This is a very large catalog. It is truly amazing how many different scholarships there are and this book gives a very organized review of each one. Since this is an industry that changes all the time, the information in this book is time-sensitive.

Lots of examples of scholarships. Helped us get a better idea of what we were in for. My recommendation for scholarships is start early when the kids are still pre-teens. There are lots of scholarships that require club participation over time. Mom and Dad can make their child eligible by

joining a few organizations also..
