This book of Mr. Myers is a big help for those who are having a hard time planning their schedule, projects, etc. As for me, I didn't have plans. I just go with the flow but I know what I was to achieve. I thought it was easy, but in the end, I learned that planning plays a big part in making your plans successful. This book is very compact, it discusses all you need to make your plans, projects, and even your day to day life easy. Reading this book will assure you that if you follow the process, as

mentioned in this book, you will surely achieve your goals. In business, this book is very helpful, especially when it comes to handling your staffs, making your projects work, step by step plans, etc. This book is a must read if you are into business and learn how to become a successful effective and efficient planner, may it be in business or in your life.

This book is some way or another supportive for the novices. I like how the writer compose the arrangement on arranging an undertaking, I couldn't concur progressively when the need to comprehend who is in charge of closing down every part of the venture. This book is splendid and satisfying. Organization is the most essential piece of any assignment and it will focus the achievement. This book is a littler simple to inspect guide for the essentials of Project Management. This book discusses how to clearer acknowledge on the best way to deal with manage any endeavor.

I am the type of person who doesn't plan ahead when there are things that need to be built or renovated in my household. But after reading this book, I realized that there could have been better and efficient ways to finish those small projects I had done in the past. Project management, as elaborated in this book is not just for businesses. We could apply it in our own small ways of finishing certain projects. I am sure that I will apply all the things that I have learned from this book in my next future projects.

This book has helped tremendously by breaking down concepts and methodologies into simple everyday test and examples. This book is not for those who already have their feet wet in Project Management. This is more so for those who need an intro to the intro. Reading this makes me more confident in my abilities to learn more about Project Management. There is an explanation on establishing business value for undertaking a project. This section helps justify why an organization should adopt project management practices. It turns out that almost everything was worth highlighting but it forced me to read each line thoroughly.

Project Management is really needed to comply and finish any planned project. I have how detailed the book on efficiency and effective management even how small the project is. Sharing this to my husband. Thanks Greg F. Myers!

I personally know people in project management in big banks and companies like that, and this

book is an eye-opener for the inexperienced starter. Risk assessment, managing staff, and other important issues are all addressed in this book.

This guidebook is perfect and helpful. Inside of this book I have found tons of effective strategies and techniques to get success in project completion. The author of this book has described every single plot very clearly and step by step. A few days ago, my friend suggested me about this book and for that reason I purchased this book. This book introduced me different models of project management. I got my questions answers from this book and I have learned all steps of project management. Lots of information and instructions are included inside of this book and I am really pleased by reading this book. Many thanks to the author for guiding us and it's really appreciated.

As a business management graduate and a bit familiar with some management process. This book is somehow helpful for the beginners. I like how the author write the format on planning a project, I could not agree more when the need to understand who is responsible for signing off each part of the project. Also the actual progress that needs to be monitored and can be assimilated or recorded for me to understand more about how I can track the progress. Short but informative book.
